# TrillaMed NASA SEWP VI Ordering Guide

Contract Number 80TECH26D0406 | Category A: ITC/AV Solutions | UEI GW9FLBWB5625 | CAGE Code 56FN2

## Request a Quote

*The SEWP Quote Request Tool (QRT) is the recommended method for requesting quotes.* Submit your request through the QRT at www.sewp.nasa.gov and select TrillaMed as a contract holder.

For quote, pricing, and product questions, or to request a quote directly:
Tejas Smart | sales@TrillaMed.com | 248-433-0592

## Submit an Order

Choose either of the following options:

### Email SEWP

Email your PDF order to:

**sewporders@sewp.nasa.gov**

### Email TrillaMed

Email your PDF order to the TrillaMed sales rep listed at the top of your quote, or to:

**sales@TrillaMed.com**

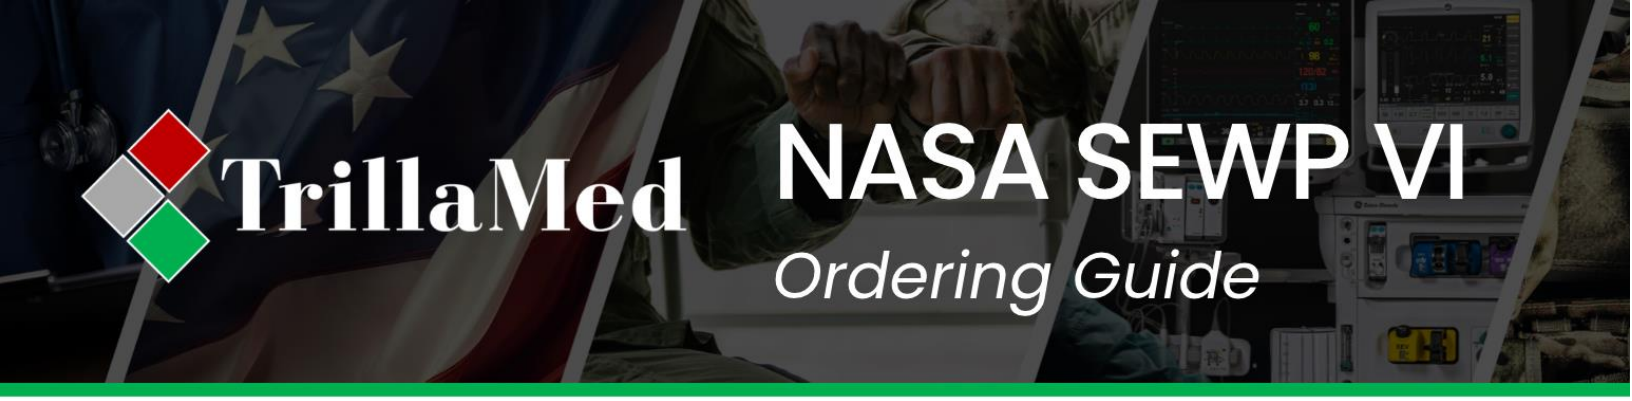

## Installation, Warranty, and Support

TrillaMed products carry the manufacturer's standard commercial warranty, which is passed through to the government end user. Warranty terms, extended warranty options, installation, and technical and software support vary by manufacturer partner. Specific terms are noted on each TrillaMed SEWP quote, and manufacturer warranty documentation is available on request.

For warranty, installation, extended coverage, or technical or software support:
Tejas Smart | sales@TrillaMed.com | 248-433-0592

## Problems with an Order

1. Contact TrillaMed first: Tejas Smart | sales@TrillaMed.com | 248-433-0592
2. If unresolved, escalate to: Aartee Ignaczak, Program Manager | AIgnaczak@TrillaMed.com | 248-203-9728
3. Then contact the NASA SEWP PMO Helpline: help@sewp.nasa.gov | 301-286-1478
   SEWP PMO Hours: Monday - Friday, 7:30 AM - 6 PM (ET)

Contract Number 80TECH26D0406 | Category A: ITC/AV Solutions | UEI GW9FLBWB5625 | CAGE Code 56FN2

## SEWP Information

The NASA SEWP (Solutions for Enterprise-Wide Procurement) provides the latest Information Technology, Communication, and Audio-Visual (ITC/AV) solutions and services for all Federal Agencies and their approved contractors. Created in 1993, SEWP I was the first Government-Wide Acquisition Contract (GWAC) in the federal acquisition space. Originally, the contract vehicle provided only technology products for NASA and all other agencies. SEWP has continually evolved over the past 30 years, expanding its scope to meet the requests of its customers. The SEWP vehicle represents acquisition innovation within the Federal Government. The program is self-funded through usage fees (0.34%) and provides all Federal agencies with acquisition support – more than 50,000 orders a year.

Fair Opportunity - FAR 16.505(b) (1) provides that each contractor shall be given fair opportunity to be considered for each order exceeding $10,000 and issued under multiple award contracts. The FAR states that the method to obtain fair opportunity is at the discretion of the Contracting Officer (CO) and that the CO must document the rationale for placement and price of each order. Using the SEWP online Quote Request Tool is the recommended method to assist in this activity and to augment the required decision documentation. The SEWP Quote Request Tool (QRT) will automatically include the Contract Holders within a selected Group or based on a suggested source.

SEWP is designed to provide a broad suite of Information Technology, Communication and Audio Visual (ITC/AV) solutions and services. Technology is ever-evolving and for that reason SEWP's processes enable our Contract Holders to add new commercial technology and IT services to their contract daily, as requested by our customers. The focus of SEWP is on the full suite of technology offerings that simplify Governmental access and Industry offerings across the entire ITC/AV solutions and services landscape. SEWP VI includes three (3) scope categories: Category A, ITC/AV Solutions; Category B, Enterprise-wide Strategic Solutions; and Category C, ITC/AV Mission-based Services. To confirm whether your requirement is in scope, send an overview and/or bill of materials (BOM) to help@sewp.nasa.gov for a quick review and feedback.

## About TrillaMed

Through strategic partnerships with leading healthcare OEMs, TrillaMed delivers a portfolio of solutions that extend well beyond traditional medical equipment and align directly with the information technology, communications, artificial intelligence, cloud computing, and audiovisual mission of the NASA SEWP contract. Together, these technologies enable federal healthcare customers to modernize clinical operations, improve data-driven decision making, expand virtual care capabilities, and strengthen enterprise-wide connectivity through a single acquisition vehicle.
